

FRSA Meeting  
October 14, 2009  
Applewood Seed Co.

In attendance were Mary Loring, Annette Miller, Jim Bruce, Sue Varela, Pat Conine, Cheryl Walter and Ethan Waltermire (by phone conference call).

Ethan called the meeting to order.  
Secretary Barbara Atkins was not present. Secretary report was not given.  
Pat Conine gave the Treasurer's report. Annette moved to approve and Sue seconded.  
Treasurer's report was accepted.

#### Old Business:

STEP report was given by Jim. CSU Seed Program is updating their Web page. There is a Seed Certificate program on line for continuing education college credit.

Annette reported that she is continuing updating the TZ Handbook and passed around a notebook with pages that have been reformatted already.

Ethan gave an update on the AOSA/SCST meeting held in Ft. Collins in June. All disbursements have been made. The meetings came out in the positive, which will be returned to the AOSA & SCST organizations.

#### New Business:

With the departure of Melissa Simpson as FRSA president, a special election for FRSA president was held. Annette Miller volunteered. Mary Loring motioned to accept Annette and Cheryl seconded. The motion passed. FRSA wants to thank Ethan for stepping in as acting President for the AOSA/SCST meeting planning.

Ethan made a suggestion that FRSA continue to do a 15-20 minute continuing education at the FRSA meetings. Mary volunteered to give a presentation about *Linanthus* at the January meeting. She handed out seeds for people to germinate and examine.

#### 2010 Business meeting dates and locations:

January 13, 1:00pm at Arkansas Valley (Longmont)  
April 14, 1:00pm at NCGRP (Ft. Collins)  
July 14, Workshop - Time to be determined, CSU (Ft. Collins)  
October 13, 1:00pm at Applewood (Arvada)

Ideas about the July workshop were discussed. There will be more discussion at the January meeting.

Mary Loring stated there are photos of pollinator species on the Applewood web site at [Applewoodseed.com](http://Applewoodseed.com).

Mary Loring had some ideas for rule proposals related to *Linanthus*. If she isn't able to submit a rule proposal by the October 15 deadline, the issue can be discussed at the January meeting. One of the issues has to do with the common name for *Linanthus*. The common name for *Linanthus grandiflorus* is mountain phlox. This is currently incorrectly listed as the common name for *Linaria genistifolia* which is noxious. *Linanthus* is not currently in the rules.

Jim moved to adjourn and Pat seconded. Meeting was adjourned.
